CANNABIS CONSULTING FIRM OFFERS SUBSCRIPTION-BASED COMPLIANCE SERVICE

The Evergreen Plan from Verde Compliance Partners provides continuous support and easy access for its clients

Cleveland, OH – National cannabis consulting firm Verde Compliance Partners, LLC, has launched its Evergreen Plan, a subscription-based service providing ongoing compliance support for clients. As a full-service consulting firm, Verde Compliance Partners is known for its ability to guide clients step-by-step from an initial consultation through ongoing compliance services once federal cannabis legalization occurs. Engaging in the firm’s Evergreen Plan will help guide clients through all their Federal compliance needs.

“Getting ready for federal compliance will put your company ahead of the curve by resolving any issues before applying,” said Verde’s executive director Harry Bernstein. “Our Evergreen Plan ensures that clients receive updates and advice regarding the changing cannabis landscape, as well as priority application service once federal prohibition is repealed. Our secure online portal makes it easy for clients to work with us and stay up to date as they go through the application process. The plan includes content and flash updates from Verde’s team of experts informing clients of best practices in preparation for the Federal application process, regulatory compliance, and changes in federal law.”

Subscription services also include one-on-one consultations with advisers and priority access to Verde’s application service once federal prohibition is repealed. Evergreen Plan clients enjoy a convenient, easy-to-use, and secure online portal on www.verdecompliance.com.

Verde provides an initial consultation and prequalification analysis to determine a client’s potential eligibility for anticipated federal permitting and offers guidance to resolve any issues ahead of applying. The firm’s expert team will also help clients complete and submit permit applications once federal regulations have been finalized.

Verde’s team of established senior-level executives leverage decades of unique experience and contacts in the alcohol and tobacco industries at the local, state, and federal levels. Cannabis permitting is

expected to roll out similarly to these other segments, enabling Verde's experts to guide clients through the regulatory, legal, and administrative requirements necessary to comply with current and future federal regulations.
